

American Locals Index

The time is fast approaching when the first volume of Dr. Patton's work on American Locals will be published. This will contain the issues for New York City and Brooklyn.

Printed below is the index for those issues which have been published in this journal; those which have not yet been published will appear in the finished work. Collectors requiring this volume should notify our publishers. Copies of the monographs on Boyd's Local Posts and the Local Posts of Brooklyn are now available.

In the Mail Came

a note from Edmund Chellew, P.R.O. of Willesden S.C.S. saying that members of the Willesden Stamp Collectors' Society were recently entertained by an interesting display given by R. Holdeman entitled "Philatelic Constabulary Renewd". Some covers associated with Police Constabulary ranging from the Canadian North West Territories to the Pacific Islands and across Europe provided a varied display.

* * * * *

a correction from W. E. Lea (Philatelists Ltd.) pointing out that in the May issue the recipient of the Lichtenstein Memorial Award should have been given as Alvaro Bonilla-Lara.
